FUEL		
Fuel economy (city/highway) ²	Manual: 19/27 mpg CVT: 22/29 mpg	18/25 mpg
Fuel requirement	Unleaded gasoline (87 octane)	
SYMMETRICAL ALL-WHEEL DRIVE		
Continuous All-Wheel Drive	Models equipped with 6-speed manual transmissions utilize a viscous-type locking center differential with torque distribution normally configured at a 50/50-split front-to-rear. If wheel speed differs between front and rear axles, the system helps distribute power to the wheels with the most traction.	
Active All-Wheel Drive	Models equipped with Lineartronic™ CVT utilize an electronically controlled variable transfer clutch to distribute power to where traction is needed. Sensors monitor parameters such as wheel slippage, throttle position and braking, to help determine torque distribution and direct it to the wheels with optimum traction.	
Variable Torque Distribution (VTD) All-Wheel Drive	Models equipped with 5-speed automatic transmission utilize an electronically controlled variable transfer clutch in conjunction with a planetary-type center differential and a viscous-type limited-slip rear differential. Torque distribution is normally configured at a performance-oriented rear-wheel-biased 45/55-split front-to-rear. Sensors monitor parameters such as wheel slippage, throttle position and braking to help determine torque distribution and direct it to the wheels with optimum traction.	
STABILITY AND TRACTION		
Vehicle Dynamics Control (VDC)	VDC electronic stability control utilizes sensors which constantly monitor wheel speeds, steering angle, brake pressure, vehicle yaw rate and lateral g-forces. If VDC detects a difference between the driver's intended path and the one the vehicle is actually taking, VDC applies braking power and/or reduces engine torque to help correct vehicle path.	
Traction Control System (TCS)	VDC also incorporates an all-wheel, all-speed traction control system which senses a loss of traction and applies braking force to the slipping wheel or wheels as necessary to maintain vehicle motion.	
CHASSIS		
Steering	Engine-speed-sensing variable power-assisted rack-and-pinion. Turning circle: 36.8 feet.	
Suspension	4-wheel independent raised suspension. Front: MacPherson strut type. Rear: Double-wishbone. Front and rear stabilizer bars.	
Brakes	4-wheel disc (2.5i models: ventilated front. 3.6R models: ventilated front and rear). 4-channel, 4-sensor ABS with Electronic Brake-force Distribution (EBD).	
Brake discs (front/rear)	11.6 inches/11.3 inches	12.4 inches/11.4 inches
Brake Assist	When emergency braking is detected by how quickly the brake pedal is pressed, maximum brake pressure is immediately applied.

¹ 2010 Subaru Outback non-turbo 2.5-liter models achieving a Partial Zero Emission Vehicle (PZEV) rating by the California Air Resources Board are available in all 50 states. Only those registered in California, Connecticut, Maine, Massachusetts, New Hampshire, New York, Rhode Island and Vermont are eligible for the 15 years/150,000 miles emissions warranty. California PZEV-certified vehicles are considered the cleanest gasoline-powered vehicles because they meet California's most stringent tailpipe emissions standards for Super Ultra Low Emission Vehicles (SULEV). (Subaru offers other 2010 model emissions warranties for high-cost parts in only those states adopting the CA LEV Program.) ² 2010 EPA fuel economy estimates. Actual mileage may vary. ³ Optional as part of All-Weather Package. See equipment listing above. ⁴ Available as an accessory. Satellite radio hardware and required monthly subscription sold separately. See your dealer. ⁵ The Supplemental Restraint System (SRS) (airbags) affords the driver and the front and rear outboard passengers additional protection in moderate to severe frontal and side-impact collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat. ⁶ Requires optional moonroof. ⁷ With vehicle stopped and parking brake engaged.
